The tutor really kept my attention well and made the 'stats' session very understandable with humour. He really adapted well to all of the groups' learning styles. I thought the tutor was an excellent natural trainer and really made the course a delight for me to attend. Thanks!

Stephanie Akerman, Flagship Training

Just wanted to drop you all a quick note to say a big thank you for your help during the Level B course a couple of weeks ago. I am always astounded at how helpful and flexible you guys are. Not only this but you manage to tread the fine line between being a small, friendly Company and maintaining the highest standards of professionalism. The tutor's grasp of both psychology and the "real" business world really shone through during the course as did his sense of humour! Personally speaking all the work you have done for my areas of the business at British Energy has always been first class and this is reflected in the enhanced quality of recruitment we have seen recently.

As I mentioned, flexibility means a lot to Companies like British Energy and I cannot emphasise enough the number of times you have demonstrated this. Anyway, please keep up the good work and give yourselves a pat on the back!
